

# Flexible Ways to Learn

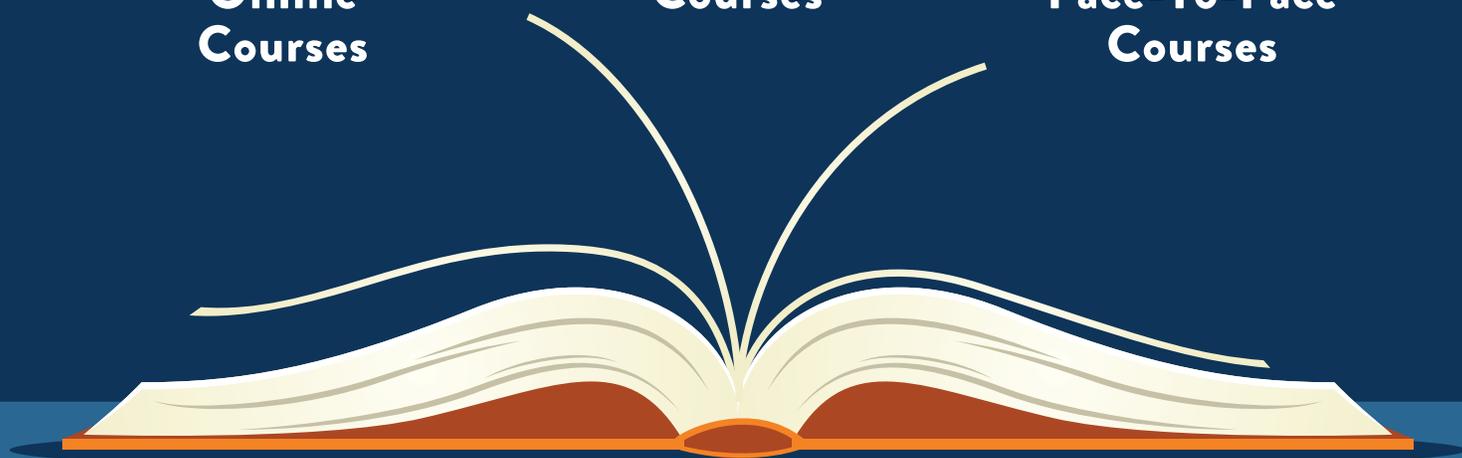

**Fully  
Online  
Courses**

**Flex  
Courses**

**Fully  
Face-To-Face  
Courses**

**SPC is offering multiple ways to deliver instruction safely to our students. They include:**

- a. **Fully Online Courses** – These courses have no face-to-face instruction and can be taken from anywhere at any time. In addition, fully online courses are being dramatically increased to accommodate student demand.
- b. **Flex Courses** – These courses offer some face-to-face instruction with online instruction provided to supplement and enhance learning. These courses can take on many different formats. Some include:
  1. Lecture online with lab components face-to-face
  2. Flipped classroom with online lecture delivery and face-to-face discussion
  3. Face-to-face lecture delivery with online discussion / course supplements / online testing
  4. Some face-to-face instruction supplemented with online instruction
- c. **Fully Face-To-Face Courses** – These courses offer instruction completely face-to-face. Students will be expected to attend courses on an SPC campus at a specific time and day. These courses will have reduced enrollments to ensure a safe and responsible learning environment consistent with good social distancing practices.
