ATTENDANCE:

Successful completion of Principles of Accounting is affected by your class attendance. Whenever absences become excessive and, in the instructor's opinion, minimum course objectives cannot be met due to absences, the student should be withdrawn from the course. Students will not have more than **4** absences in this class. Upon the 5th absence, I will drop the student (with a grade of **F**) or if after the last drop date, a grade of **F** will be given in the course. In addition, an instructor is required to notify the Office of Student Services when the student has missed every class day during any 14 consecutive calendar-day period, excluding holidays (see college catalog). Attendance is taken at the **first** of class. Only two tardies will be allowed, after two it is an absence. Please attend other sections of the class to make up attendance.
