Lessons 1055, 20e, VanHuss-Forde-Woo-Robertson

You will need to purchase a Cengage Unlimited Access Code for this course. The Levelland or Reese Campus Bookstore have these available. If you purchase one in person, you will receive a physical card with a scratch off code. Make sure you do not scratch so hard that it takes the actual code off. If you order online through the SPC Bookstore and pick digital delivery, you will get the code over email. If you select "ship to home", the physical card code will be snail mailed to your home address and this takes some time.

Beware of sites that are selling discounted codes. These sources are likely unauthorized sellers who have acquired access codes illegally, and transactions with such sources may pose a risk to your personal information.

You will need to sign into Blackboard and choose the class you want to enter. For this class, click on the course link on the left side of the screen (Click Here for

Keyboarding). If you are asked for a course key, you have not signed in correctly through Blackboard. It will ask you to enter your Cengage Unlimited Access code and input other information.

You may rent up to four (4) physical textbooks through Cengage Unlimited for \$7.99

each! If you think a hardcopy of your text would help you, I would definitely take advantage of this!

Flash Drive on which to save your files or you may use One Drive (recommended).

IMPORTANT NOTE ABOUT OBTAINING YOUR MATERIALS: IF YOU OBTAIN COURSE MATERIALS FROM A SOURCE OTHER THAN THE SPC BOOKSTORES, WE WILL NOT BE ABLE TO ASSIST YOU IF THE MATERIALS ARE NOT APPROPRIATE FOR THE COURSE. Courses in technology-related fields commonly require access codes for technology-based learning and assessment systems such as SAM. ISBNs for textbooks about and that include technology are regularly updated for relevance by the book publisher; ISBNs you find at non-instructor approved sources may not be the ISBN required by your instructor. Thus, we can only guarantee that new materials obtained according to the information in this document—and obtained just prior to the beginning of the term—will work for the course.

Internet Access

The computer you are using must be able to connect to the Internet and allow you to browse the World Wide Web. E-mail access is required to communicate with your instructor. To test for the ability to browse the Web, a computer must be able to visit these sites:

<http://www.southplainscollege.edu>

<https://southplainscollege.blackboard.com/>

Please test your computer to make sure that you can access all of these sites

Anti-virus Software: Please make sure that your computer has an up-to-date anti-virus software program installed.

COURSE STRUCTURE

This course is an online course, which means that you will access course information and respond to me through the use of the Internet. Blackboard is used to deliver and manage this course. It is a software package that was written to help manage online courses. There is help available for students at the SPC Online Web site. If the online environment is new to you or if you have problems of any nature, please do not let yourself become overwhelmed or spend hours of your time trying to figure out how to access something. You have many sources available to you for help. You can contact me by e-mail, telephone, or come by my office.

Microsoft Office

System Requirements

A fully installed Microsoft Office® version is required to complete most Keyboarding in SAM projects. This may be Office 2016 or Office 2019/365. There are minor differences but both should work.

ATTENDANCE POLICY

The grade of "F" will be assigned to a student as an earned grade in regard to the learning objectives of a course. A student who does not meet the attendance requirements of a class as stated in the course syllabus, and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of "X" as determined by the instructor. An "F" will not be assigned to any student administratively withdrawn from this course for non-attendance. It is the student's responsibility to be aware of that policy.

An "F" may be assigned to a student in the case of academic dishonesty and/or plagiarism at the discretion of the instructor, as clearly defined in the course syllabus, due to the severity of the student's actions and disregard for the learning objectives of the course.

Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first-class meeting.

Students who enroll in a course but have never attended by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records.

It is the student's responsibility to verify administrative drops for excessive absences. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate, and the student will owe any balance resulting from the adjustment.

Even though this is an online class, students still have to access the course on a regular basis. The Blackboard software used to manage this online course tracks student logins, tracking when and where the student has been in the course. Accessing this course on a regular basis is extremely important in order to meet the objectives of this course. You will feel more at ease with the materials if you stay in touch with what is going on. **You will need to check your SPC e-mail at <https://office.com>.**

Minimum log in for the course is at least three (3) days per week. However, I recommend checking in once a day if possible for announcements. I can see how many times you log in!

You may work on this class 24/7. That's the advantage of an online class.

Students are expected to log in to Blackboard and MyLabIT at least three times a week. Remember, you can work on this class 24/7.

Withdrawal Policy

Even though this is an online class, students still have to access the course on a regular basis of at least four times per week. If you can login every single day that's even better. Keyboarding skill is gained by practice and repetition. The Blackboard software used to manage this online course tracks student logins, tracking when and where the student has been in the course. Accessing this course on a regular basis is extremely important in order to meet the objectives of this course. You will feel more at ease with the materials if you stay in touch with what is going on. ***Minimum log in for the course is at least four (4) days per week.***

WITHDRAWAL POLICY

If for any reason the student is unable to complete the course requirements, it is the student's responsibility to initiate their own withdrawal by the drop date for the semester which is **Thursday, December 1. If you drop and your average is below 60, you will receive an F as your course grade. An administrative drop by the instructor in this course will, in most cases, result in the student receiving an "F" (not an "X"). **Always contact your instructor before dropping a class.****

ASSIGNMENT POLICY

Daily work should be done at a pre-determined time each day. Consistency is very important in your success in learning the keyboard. Follow the directions on the screen. If you miss the deadline, **the grade will be a 0**. In the first 25 lessons, if you do them to the best of your ability and try to be accurate, you should make 100 on those lessons. You must stay on schedule and complete the assignments as shown on the course calendar. We cover several chapters a week so you must work on keyboarding a little each day. Keyboarding cannot be learned and developed if you wait until the due date to start. Motor skills take time and repetition! Some lessons will contain word processing documents that must be completed and the grading will be very different from the first 25 lessons. An algorithm is used in grading. In most cases, grades are based on how many correct steps you can do in comparison to the total number of steps in the problem.

Remember to use good posture (feet on the floor) and keep your eyes on the screen or book. **Don't look down at your hands except when learning a new key**. Looking at your hands is a tough habit to break!

EXAMINATION POLICY

A final exam will be given covering Lessons 26-45.

GRADING POLICY

Final grades will be calculated as follows:

Average of Lessons 1-48	40%
Average of all Palmetto Event Solutions	20%
Average 5' graded timings	30%
FINAL (Word exam over Lessons 26-45)	10%

NOTE: For lessons 1-25, you must complete the assigned lessons by the due day. If you do, in most cases you will receive 100 for those lessons. Lessons not turned in by the deadline will receive a 0. Starting with Lesson 26, you will start to learn some basic skills in Word. These lessons will be graded by an algorithm that compares how many correct steps you achieve in comparison to the total number of steps

Thirty percent of your grade will be based on three 5' timed writings that will be completed near the end of the course. Do not worry about this when you're in the earlier lessons.

Remember, your goal is to learn the keys and reaches for all letters, numbers, & symbols by touch. This is achieved by practice. **DO NOT LOOK AT YOUR HANDS!** Keep your eyes on the text on the screen.

Final grades will be based on the following scale:

90-100	=	A
80-89	=	B
70-79	=	C
60-69	=	D
Below 60	=	F

CAMPUS GUIDELINES

CHILDREN ON CAMPUS

Many of the students attending classes at South Plains College are also parents who value the opportunity to participate in higher education. Sometimes students are faced with the decision of whether to remain at home with their children, bring children with them to class, or be absent from class. The following guidelines address concerns for the safety of children on campus and provide for an environment conducive to learning:

1. **Students are not allowed to bring children to class and will be asked to leave in the interest of providing an environment conducive for all students enrolled in the class. Students are responsible for adherence to the attendance requirements set forth by the instructor in the course syllabus.**
2. **Children may not be left unattended. In order to provide for the safety of children on campus, parents or other guardians are responsible for supervising children while utilizing services or conducting business on campus.**
3. **Disruptive children will not be allowed to interfere with college business. Parents or other guardians are responsible for supervising and controlling the behavior of children they have brought on campus.**

Diversity Statement

In this class, the teacher will establish and support an environment that values and nurtures individual and group difference and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

Disabilities Statement

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. To activate accommodations you must submit a Title IX pregnancy accommodations request, along with specific medical documentation, to the Health and Wellness Center. Once approved, notification will be sent to the student and instructors. It is the student's responsibility to work with the instructor to arrange accommodations.
