**Additional Information:**

This course is founded on interaction, communication, and culture and is geared at improving all aspects of Spanish language-speaking, listening, reading, writing and knowledge of the Hispanic culture. Strong emphasis will be placed on reading and speaking the language; therefore, the course entails a great deal of reading preparation and oral practice of the language during class time. You will exchange real-life information about yourself in a variety of activities. You will continue to acquire and improve upon your aural comprehension by listening to me and others speak in class, which will be conducted primarily in the target language (Spanish), and by listening and responding to the comprehension exercises in MySpanish Lab (MSL), as well as any additional materials presented in class. It is recommended that you spend time outside of class exposing yourself to the Spanish language by watching Spanish-speaking programs, listening to Spanish radio stations, choosing print materials of personal interest that are in Spanish, and engaging in interactions with others that speak the language. You will continue to acquire and improve your speaking ability by using Spanish with the whole class and in small activity groups. Nevertheless, it is always important to understand the basic principles of grammar in order to become more proficient, and this will require that you learn said principles and rules, which will be discussed in English. In learning such an array of communication skills you must diligently practice and strive for improvement. It is impossible to "cram" for a language class and expect satisfactory results as communicative competence is built gradually over a period of time. You will be given ample resources to help you succeed and you will be held to high expectations in all aspects of this course. Having and maintaining your SPC email account as well as online access will be essential for this course. Please note campus computer lab locations and times.

**Assignments:** All assignments are to be completed by 11:59pm CST on the assigned due date. Assignments will include MySpanish Lab assignments, readings and textbook exercises, supplementary worksheets, as well as any other activities designed to stimulate and reinforce foreign language acquisition. Please prepare your assignments carefully and expect to participate in any scheduled discussions. On average you should study an amount of time equal to that spent in class. **Assignments will not be accepted incomplete or late.** Please note that in this class, utilizing translation websites for written assignments in Spanish will not be allowed and will infringe upon the guidelines of academic integrity.

**Evaluation: Grade determination:**

MySpanish Lab (includes all exercises posted on the MSL).....	60%
