

Course Schedule: Tentative, subject to change as needed. Please note that daily activities will be found via blackboard. The synchronous class days count as test grades. This means that missing one or both of your required days will result in a substantial drop in your grade; also, consider this is how you submit speeches. Finally, all assignments are due the date listed (typically Friday of the week in question, unless specified otherwise here or on Blackboard) by midnight. If you are unable to complete an assignment by that time then I suggest you contact me early.
