## Field Experience Component

- EDUC 2301, as the course title indicates, is an introduction to the special populations within the general education classroom and a State requirement for the Associate of Arts in Teaching (AAT) degree. In addition to attending all class meetings throughout the semester, students will be given four education/field-experience assignments, each one expected to span approximately 4 hours to equal 16 hours of total time. **Students will also need to complete and pass a criminal background check before attending any observations.**
- **For ALL Classroom Presentations & AAT Observations:** professional dress is required. Professional dress is considered a collared, button-down or golf shirt, Docker-style pants, slacks, skirts, or dresses. (Girls, if you wear a dress, it needs to be cut no shorter than just above the knee—NO MID-THIGH dresses are permitted). Professional dress does NOT include sun-dresses or shirts with spaghetti straps, hoodies, sweat pants, flip-flops, t-shirts, ball caps, blue jeans, colored jeans with holes, tennis shoes, shorts, miniskirts, or any other type of casual clothing for sports or leisure. Students failing to respect these rules will receive a zero “0” for the observation and assignment and will not be allowed to make it up.
- **Professionalism:** I place a **great** value on professionalism. It is KEY to being an effective teacher, and this semester is your opportunity to demonstrate this skill. Your participation/attendance/professionalism grade is a subjective grade, which is judged based upon my perspective and measured by your actions. It will be expected especially during your field experiences. Please remember that we are guests in the schools that we observe. This should be taken into consideration in your dress, speech, and actions. When you become a teacher, your professionalism is judged by students, fellow teachers, administrators, parents, and the community.

### What is professionalism?

Some examples of professionalism include, but are not limited to: effective communication, punctuality, respect for fellow classmates, instructor and staff (in both actions and speech), being prepared for class and proper behavior and attitude in the field (see observation requirements), how you handle situations and interact with others, maintaining confidentiality, and above all...maintaining positive public conversations held with other students concerning the education courses and program, especially in the presence of students that have not yet entered the program.

## General Assignment Information

- **Attendance/Participation/Discussion/Professionalism (15%)**  
The following assignments are included in this portion of your grade: 6 - 8 weekly Flipgrid discussions, participation in the 4 group (Blackboard Collaborate or TEAMS) discussions, completed observation verification forms, & conduct during classroom observations
- **Weekly Module Learning Activities & Quizzes (30%)**  
Weekly assignments and/or quizzes based on weekly readings, informational videos, guest lectures, etc., will make up this portion of your grade.
- **Interview Transcript/Reflection (10%)**  
Interview a parent or teacher of a special-needs/exceptional child or an adult who was classified as a special-needs or exceptional child during his/her schooling. Transcribe your interview (i.e. type up a transcription of your interview questions and answers) and type a 1 – 1 ½ page reflection. You will submit this assignment through Turnitin.com (a link will be provided). Guidelines and a rubric for this assignment, along with other pertinent instructions will be passed out in class (or made available on Blackboard).
- **Lesson Plan Presentation (15%)**

You will design and present a lesson plan based on a specific grade level and a specific topic within a specific subject (e.g. a lesson on adjectives as part of a 3<sup>rd</sup> grade English Language Arts (ELA) grammar unit. Your lesson plan must follow UDL guidelines and include specific accommodations for special populations. Guidelines and a rubric for this assignment, along with other pertinent instructions will be made available on Blackboard).

**\*PLEASE NOTE: Your EDUC 2301 Lesson must be a different lesson from the lesson you presented in EDUC 1301. It must also be a different lesson from the practice lesson we do early in the semester.**

- **Field Experience & Field Notes (20%)**

You will visit 4 different school campuses to complete 16 hours of observation in the field over the course of the semester. Be sure to read carefully the “Observation Procedures and Rules” sheet. You will be required to turn in a signed (by school personnel) verification sheet to Mrs. Jameson at the conclusion of each observation. You will also need to take detailed field notes over each field experience. This process will be taught in class. Your field notes should provide demographic information about the campus/school district and classroom and should include a sketch of the classroom. Additionally, your field notes should address specific (given) questions. You will submit each of these field notes through Turnitin.com (links will be provided). Guidelines and a rubric for these field notes will be passed out in class (or made available on Blackboard). In order to submit your field notes, you must have turned in your verification sheets. **Field notes are due within 2 weeks of your classroom observation date.** If an emergency arises (or you wake up sick) and you must miss your observation, please contact Ms. Jameson by email ([observations@soutplainscollege.edu](mailto:observations@soutplainscollege.edu)) and by completing the Observation Absence form. *Failure to attend your scheduled observation times (without a valid and documentable reason) will result in zeroes for all assignment-related grades, including the final observation project.*

***Please Note:** If students do not complete the required background check, observation paperwork sign up for observations by the given due dates, they cannot complete the observations and will be dropped from the class*

- **Final Observation Reflection Project (10%)**

This final observational analysis paper will count as your final in this class. Using your field notes, you will write a final analysis paper. In this paper, you will highlight three different concepts related to diversity in the classroom and planning instruction to suit the needs of your diverse students, citing examples and/or non-examples of each of these concepts from your observations. You will be expected to use correct APA formatting and citations. You will submit this assignment through Turnitin.com (a link will be provided). Guidelines and a rubric for this assignment, along with other pertinent instructions, will be passed out in class (or made available on Blackboard).

### Academic Integrity/Plagiarism

Students are expected to do their own work on all projects, quizzes, assignments, and papers. Failure to comply with this policy will result in an F for the assignment and can result in an F for the course if circumstances warrant it.

Plagiarism violations include, but are not limited to, the following:

1. Turning in essays or work that has been purchased, borrowed, or downloaded from another student, an online term paper site, or a mail order term paper mill;
2. Cutting and pasting together information from books, articles, other papers, or online sites without providing proper documentation;

*If a student plagiarizes on an assignment, a failing grade will be given for the assignment. Any student caught or reported cheating on an exam will also be given a failing grade and possibly dropped from the course. You are in a **teacher preparation program** and behavior of this sort is not conducive to the standards and behavior that is expected as a participant in the AAT program.*

### Student Code of Conduct Policy

Any successful learning experience requires mutual respect on the part of the student and the instructor. Neither instructor nor student should be subject to others' behavior that is rude, disruptive, intimidating, aggressive, or

demeaning. Student conduct that disrupts the learning process or is deemed disrespectful or threatening shall not be tolerated and may lead to disciplinary action and/or removal from class.

### **Intellectual Exchange Statement**

In South Plains College courses, the instructor will establish and support an environment that values and nurtures individual and group difference and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

### **Artificial Intelligence Statement**

Artificial Intelligence (AI) can be helpful for students to use as a springboard or brainstorming tool. However, it cannot replace the critical thinking, creativity, and independent work that are expected for assignments submitted in this class and that are integral to your academic growth. Submission of an assignment composed by AI is considered a violation of academic integrity and will result in a zero for the assignment.

### **Disabilities Statement**

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. Note: The instructor reserves the right to modify the course syllabus and policies, as well as notify students of any changes, at any point during the semester.

The intention of the master syllabus is to provide an outline of the contents of this course, as specified by faculty of the College Literacy and Education Department at South Plains College, regardless of who teaches the course, when it is taught, or where it is taught. Faculty members teaching this course for SPC are expected to facilitate learning pursuant to the course objectives. However, instructors are also encouraged to cover additional topics of interest so long as those topics are relevant to the course's subject. The master syllabus is, therefore, prescriptive in nature but also allows for a diversity of individual approaches to course material.
