Textbook: None

Supplies: As a reminder, there is no text book for this course. You will need writing utensils (preferably pencils), lined notebook paper, a binder (for organizing purposes) a scientific calculator. Calculators on cell phones, TI-89, TI-92, or TI-Inspire calculators, or any other electronic devices will not be allowed during testing without permission from the instructor. Make certain you have access to a scanner or scanning app such as CamScanner, Scannable, OneDrive, etc. in order to scan your assignments/quizzes and submit them through Blackboard.

Blackboard: Blackboard is the online course management system that will be utilized for this course. This course is supplemented online, so all access to course information and your instructor is through the Internet. This course syllabus, as well as all course materials can be accessed through Blackboard. Login at

User name: first initial, last name, and last 4 digits of the Student ID

Password: Original CampusConnect Pin No. (found on SPC acceptance letter)

Questions regarding Blackboard support may be emailed to blackboard@southplainscollege.edu or by telephone to 806-716-2180.

This course partially satisfies a Core Curriculum Requirement: No

Student Learning Outcomes: Upon completion of this course and receiving a passing grade, the student will be able to:

1. **Numeracy:** Students will develop number sense and the ability to apply concepts of numeracy to investigate and describe quantitative relationships and solve real-world problems in a variety of contexts.
2. **Proportional Reasoning:** Students will use proportional reasoning to solve problems that require ratios, rates, proportions, and scaling.
3. **Algebraic Competence, Reasoning, and Modeling:** Students will transition from specific and numeric to general and abstract reasoning using the language and structure of algebra to investigate, represent, and solve problems.
4. **Assessing Risk (Probabilistic Reasoning):** Students will understand and critically evaluate statements involving risk and arguments based on probability that appear in the popular media, especially in presenting medical information.
5. **Personal Finance:** Students will understand, interpret and make decisions based on financial information that is commonly presented to consumers.
6. **Civic Life:** Students will understand that quantitative information presented in the media and by other entities can sometimes be useful and sometimes be misleading.

Student Learning Outcomes Assessment: None

Participation: Participation is vital for success in this course. You will receive a weekly participation grade. Part of this grade will come from the completion of section lecture notes and homework assignments.

Homework: A set of homework problems will accompany each section. Homework is the means by which the student works to understand the material and prepare for assessments (quizzes and exam). The homework will not be graded. However, part of your participation grade will come from submitting your work done for each homework assignment.

Quizzes: Quizzes are given to determine if the student is mastering the required skills of the course. Weekly quizzes will be given, and the questions will be similar to the questions in the homework assignments. No make-up quizzes will be given. Your work for each quiz will be scanned and submitted as a single PDF file into Blackboard, by the submission deadline. If you do not have access to a scanner, you may use a mobile app to create a PDF file of your work.

Exams: Exams will be given during the scheduled class times on the dates stated on the course calendar. Expect to have four unit exams and a comprehensive final exam. Your work for each exam will be scanned and submitted as a single PDF file into Blackboard, by the submission deadline. If you do not have access to a scanner, you may use a mobile app to create a PDF file of your work.

Course Evaluation: There will be a comprehensive departmental final exam given by all instructors. The average of weekly participation and quiz grades will account for 24% of the final grade, while exams will account for 76% of the final grade. Your final average in the course will determine the letter grade posted on your transcript. This grade is determined by the following scale: A (90-100%), B (80-89%), C (70-79%), D (60-69%), F (0-59%).

Grading Policy: Participation Grades (14 grades taken, 4 of which are extra credit) = 12%
 Quiz Grades (14 grades taken, 4 of which are extra credit) = 12%
 Exam Grades (4 exams at 14% each) = 56%
 Final Exam = 20%

To maximize your potential for successfully completing this course:

- login to Blackboard daily;
- watch the lecture videos and take notes on them;
- thoroughly complete and submit the assignments on time;
- practice the exercises repeatedly until you have full mastery of them.

Attendance/Student Engagement Policy: Attendance and effort are the most important activities for success in this course. The instructor maintains records of the student’s engagement throughout the semester. The student will be allowed to miss twenty percent (20%) of class assignments for the semester, *for any reason*. Should this number be exceeded, the instructor has the right to drop the student with a grade of F or an X, depending on the instructor’s discretion.

Before arriving for the class meeting, make certain you have:

1. worked through the notes and videos for that days’s lessons;
2. completed a majority of the assigned exercises.

Assignment Format and Policy: Assignments are given for each lesson and will be collected on a weekly basis, (assignments along with your notes are part of your participation grade). Expect a weekly quiz to accompany each week’s assignments. For each question on each assignment:

- Write the question number.
- In solving the problem, show all necessary work.
- Clearly mark your answer.
- Write your name at the top of each page of your work.
- Write the course number and section number on the first page of your work.
- Submit the assignment in Blackboard as a single pdf file. (Pdf files can be generated easily using a scanner or many freely available phone apps, like CamScanner, Scannable, or OneDrive.)

No late assignments or quizzes will be accepted. Make certain to complete and submit assignments on time (or early). Early submissions are welcomed!

Exam Format and Policy: There are four (4) units of study in this course. At the conclusion of each unit is a face-to-face examination as specified on the Tentative Course Calendar. At the end of the semester is a comprehensive final examination at the specified time on the Tentative Course Calendar. If there becomes a quarantine issue or movement of this class to an online setting, then adequate internet supplies will be needed, such as a webcam, microphone, and access to online collaborative tools like Blackboard Collaborate or Zoom.
