

South Plains College
Common Course Syllabus: MATH 1332
Revised August 2020

Department: Mathematics, Engineering, and Computer Science

Discipline: Mathematics

Course Number: MATH 1332

Course Title: Contemporary Mathematics

Available Formats: conventional/flex and internet

Campuses: Levelland, Reese, Plainview, Lubbock Center and Dual Credit

Course Description: Intended for Non-STEM (Science, Technology, Engineering, and Mathematics) majors. Topics include introductory treatments of sets and logic, financial mathematics, probability and statistics with appropriate applications. Number sense, proportional reasoning, estimation, technology, and communication should be embedded throughout the course. Additional topics may be covered.

Prerequisite: Minimum score of 350 on the TSIA, TSI-exempt status, or a successful completion with a grade of 'C' or better in MATH 0337.

Credit: 3 Lecture: 3 Lab: 0

Textbook: *Mathematical Ideas*, Miller, Heeren, and Hornsby, 2019, 14th Edition, Prentice Hall/Pearson Education

Supplies: Please see the instructor's course information sheet for specific supplies.

This course partially satisfies a Core Curriculum Requirement: Mathematics Foundational Component Area (020)

Core Curriculum Objectives addressed:

- **Communications skills**—to include effective written, oral and visual communication
- **Critical thinking skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
- **Empirical and quantitative competency skills**—to manipulate and analyze numerical data or observable facts resulting in informed conclusions

Student Learning Outcomes: Upon completion of this course and receiving a passing grade, the student will be able to:

1. Apply the language and notation of sets.
2. Determine the validity of an argument or statement and provide mathematical evidence.
3. Solve problems in mathematics of finance.
4. Demonstrate fundamental probability/counting techniques and apply those techniques to solve problems.
5. Interpret and analyze various representations of data.
6. Demonstrate the ability to choose and analyze mathematical models to solve problems from real-world settings, including, but not limited to, personal finance, health literacy, and civic engagement.

Student Learning Outcomes Assessment: A pre- and post-test questions will be used to determine the extent of improvement that the students have gained during the semester

Course Evaluation: There will be departmental final exam questions given by all instructors.

Attendance/Student Engagement Policy: Attendance and effort are the most important activities for success in this course. The instructor maintains records of the student's engagement throughout the semester. The student will be allowed to miss twenty percent (20%) of class assignments for the semester, *for any reason*. Should this number be exceeded, the instructor has the right to drop the student with a grade of F or an X, depending on the instructor's discretion.

Plagiarism violations include, but are not limited to, the following:

1. Turning in a paper that has been purchased, borrowed, or downloaded from another student, an online term paper site, or a mail order term paper mill;
2. Cutting and pasting together information from books, articles, other papers, or online sites without providing proper documentation;
3. Using direct quotations (three or more words) from a source without showing them to be direct quotations and citing them; or
4. Missing in-text citations.

Cheating violations include, but are not limited to, the following:

1. Obtaining an examination by stealing or collusion;
2. Discovering the content of an examination before it is given;
3. Using an unauthorized source of information (notes, textbook, text messaging, internet, apps) during an examination, quiz, or homework assignment;
4. Entering an office or building to obtain an unfair advantage;
5. Taking an examination for another;
6. Altering grade records;
7. Copying another's work during an examination or on a homework assignment;
8. Rewriting another student's work in Peer Editing so that the writing is no longer the original student's;
9. Taking pictures of a test, test answers, or someone else's paper.

Student Code of Conduct Policy: Any successful learning experience requires mutual respect on the part of the student and the instructor. Neither instructor nor student should be subject to others' behavior that is rude, disruptive, intimidating, aggressive, or demeaning. Student conduct that disrupts the learning process or is deemed disrespectful or threatening shall not be tolerated and may lead to disciplinary action and/or removal from class.

Diversity Statement: In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

Disability Statement: Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office at Levelland (Student Health & Wellness Office) 806-716-2577, Reese Center (Building 8) 806-716-4675, or Plainview Center (Main Office) 806-716-4302 or 806-296-9611.

Nondiscrimination Policy: South Plains College does not discriminate on the basis of race, color, national origin, sex, disability or age in its programs and activities. The following person has been designated to handle inquiries regarding the non-discrimination policies: Vice President for Student Affairs, South Plains College, 1401 College Avenue, Box 5, Levelland, TX 79336. Phone number 806-716-2360.

Title IX Pregnancy Accommodations Statement: If you are pregnant, or have given birth within six months, Under Title IX you have a right to reasonable accommodations to help continue your education. To [activate](#) accommodations you must submit a Title IX pregnancy accommodations request, along with specific medical documentation, to the Director of Health and Wellness. Once approved, notification will be sent to the student and instructors. It is the student's responsibility to work with the instructor to arrange accommodations. Contact the Director of Health and Wellness at 806-716-2362 or [email cgilster@southplainscollege.edu](mailto:cgilster@southplainscollege.edu) for assistance.

Campus Concealed Carry: Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in South Plains College buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and South Plains College policy, license holders may not carry a concealed handgun in restricted locations. For a list of locations and Frequently Asked Questions, please refer to the Campus Carry page at: <http://www.southplainscollege.edu/campuscarry.php> Pursuant to PC 46.035, the open carrying of handguns is prohibited on all South Plains College campuses. Report violations to the College Police Department at 806-716-2396 or 9-1-1.

SPC Bookstore Price Match Guarantee Policy: If you find a lower price on a textbook, the South Plains College bookstore will match that price. The difference will be given to the student on a bookstore gift certificate! The gift certificate can be spent on anything in the store.

If students have already purchased textbooks and then find a better price later, the South Plains College bookstore will price match through the first week of the semester. The student must have a copy of the receipt and the book has to be in stock at the competition at the time of the price match.

The South Plains College bookstore will happily price match BN.com & books on Amazon noted as *ships from and sold by Amazon.com*. Online marketplaces such as *Other Sellers* on Amazon, Amazon's Warehouse Deals, *fulfilled by Amazon*, BN.com Marketplace, and peer-to-peer pricing are not eligible. They will price match the exact textbook, in the same edition and format, including all accompanying materials, like workbooks and CDs.

A textbook is only eligible for price match if it is in stock on a competitor's website at time of the price match request. Additional membership discounts and offers cannot be applied to the student's refund.

Price matching is only available on in-store purchases. Digital books, access codes sold via publisher sites, rentals and special orders are not eligible. Only one price match per title per customer is allowed.

Note: The instructor reserves the right to modify the course syllabus and policies, as well as notify students of any changes, at any point during the semester.

Course-Specific Contemporary Math Syllabus
Math 1332.151
Summer II 2021

Instructor: Leah Chenault

Office: M106

Telephone: (806)716-2740

Email: lchenault@southplainscollege.edu (preferred method of contact)

Office Hours and Contact Info: Since this is a summer class, office hours are by appointment only and will be conducted via email or virtually via Zoom.

Email Correspondence: All email correspondence should come from your SPC email address. Please give me up to 24 hours to respond via email. If you email about a specific homework question, please include a picture of the question and the work that you have tried in the email. If you need/want to set up a virtual meeting because you don't feel your question can be answered adequately via email, please email me so that we can agree upon a time.

Disclaimer: The instructor reserves the right to alter any class policies/dates as deemed necessary by the instructor. If there are any changes, they will be announced **over Blackboard and via your SPC email.**

Showing Work: To receive full credit on an assignment, you must show all work that leads to your answer(s). The work must be legible, make sense and be easy to follow. All work and answers must be handwritten.

Assignment and Test Submissions: All assignments and tests will need to be submitted as a PDF file over Blackboard by the due date and time. Only one PDF file per assignment should be submitted. I will not take any files that are not PDFs and I will not take any submissions over email. If you have a scanner, you can create your PDF with it. If you do not have scanner (that's fine...I don't have one either), you will need to create your PDF by taking photos on your phone. I will post a document in Blackboard that describes how to create a PDF from your phone using an app called CamScanner (The CamScanner app is free and we can do everything necessary for this course using only the parts of the app that are free. Please do not pay for anything inside of the app). Always double check your PDF before submitting to make sure you have included the entire assignment and that the work is legible. Also, you should receive a submission confirmation after the document is submitted. If you do not get that submission confirmation, then I did not get the assignment. If you mess up your first submission, you can always resubmit the assignment right up until the due date and time. However, after the due date has passed, I will not accept any resubmission. I encourage you to submit things early just in case you have trouble. I will only grade the last submission that you made for an assignment.

Course Supplies:

- **Required:** Textbook. *Mathematical Ideas*, Miller, Heeren, Hornsby and Heeren, 2020, 14th Edition, Pearson Education. You can purchase either a hard copy or a digital version of the textbook. If you elect to get the digital version, you do **NOT** need to purchase the MyLab Math with it. The least expensive route is to rent a digital copy. You can do so directly from Pearson at <https://www.pearson.com/store/p/mathematical-ideas-loose-leaf-edition/P100001288090?viewAll=true>. You could also purchase a copy via the SPC bookstore. The bookstore has a price-match policy. Just make sure that if you do purchase via the SPC bookstore, you do not purchase the MyLab Math.
- **Required:** Scientific Calculator. The calculator must have the functions log, ln, sin, cos and tan. Suggested TI-30XIIS. They are inexpensive and user friendly.
- **Required:** Computer with a webcam, high-speed internet access and the most up-to-date Chrome internet browser
- **Required:** Notebook paper on which to complete your assignments
- **Recommended:** Graph paper (available to print on blackboard)

- Recommended: 3 inch by 5 inch notecards. I allow you to handwrite whatever you want on one side of a 3 inch by 5 inch notecard that you may have out during testing.
- Recommended: Printed Notes. A blank copy of the notes will be posted on Blackboard. I recommend printing them (if you have access to a printer) and filling them out as you go through the notes videos. Please note that the SPC campus computer labs are available if you want to print your notes off there. If you don't have access to a printer, you should take notes on notebook paper as you watch the video. I recommended keeping all of your notes in order in a notebook in order to stay organized and make them easily accessible.
- Recommended: Large 3 ring binder with dividers to keep all notes and homework organized.

Attendance: Course attendance will be taken via your completed assignments and exams. If you fail to complete and turn in an assignment (*for any reason*) by the specified date and time, then you will receive an absence. Per South Plains College math department policy, you will be administratively dropped from the course if your number of missed assignments goes over 20% of all assignments. For this class, if the number of items (including assignments and tests) you fail to turn in goes over **four**, you will be dropped from the class with either an X (if you exceed that number before the drop date) or an F (if you exceed that number after the drop date).

Homework Assignments:

- Homework will be assigned for each notes section. If the homework assignment is out of the book, I will assign odd questions so that you can check your answers in the back of the book (just make sure you show your work that leads to that answer). If the homework assignment is a worksheet (all of our chapter reviews are worksheets), I will post a key for that assignment on Blackboard. If the assignment is a worksheet, you can either print it and fill in the worksheet or you can just do the assignment on notebook paper.
- Each section will have required homework questions (that must be turned in for a grade). If you complete the homework assignment and still feel like you need more practice, you can do the questions around the assigned questions from the book.
- Notice on the schedule that multiple sections (7.1, 7.2 etc) of homework are due at the same time. You will turn in all sections that are due at a particular time as one PDF file. I will not take any homework assignment that is not single PDF file.
- Assignments and exams are due at the date and time specified. I will not accept anything submitted after the due date and time. If you are wondering if your assignment was submitted, check your SPC email. You should receive a submission confirmation with the date and time the assignment was submitted. If you don't get a submission confirmation, then I did not get the assignment.
- Late assignments are not accepted under any circumstances. If an assignment is turned in late, it will be a zero.
- Each homework assignment will be graded in two ways:
 1. Completion (50% of HW grade)
 2. I will spot check 5-10 questions on each homework submission (50% of HW grade)
- On all assignments, you are expected to write your full name at the top, give the assignment a title (assignment number, page numbers etc) and clearly number the questions.
- To receive full credit on homework problems that are graded, you must show work that is legible and it must make sense.
- At the end of the class, the lowest two homework grades will be dropped.

Exams:

- 4 Unit Exams
- Tests must be completed in the time window given. Each test is available for a 24 hour period (see the schedule below for test days and times). The test will only be posted on Blackboard during that time interval. You should select a two hour window of time out of the 24 hour window that the test is posted. You will need to complete and submit the exam during the two hours you select.
- Tests will be monitored virtually using Proctorio software. See the Online Exam Policies and Procedures section below for more detailed information and expectations.
- When you are done with an exam, you will submit it as a PDF file over Blackboard by the specified time. After you finish and “submit” the exam link running the Proctorio software, you will have 10 minutes to submit the PDF of your exam on the link directly underneath it. If I don’t get your PDF in that 10 minutes, you will receive a zero on the exam.
- You are not allowed to print off the exam. You should do all of your work for the exam on notebook paper. A PDF of the notebook paper that you used to do the questions is what you will submit over Blackboard.
- You must show all work to received credit for each individual problem.
- If you are going to miss an exam, contact your instructor immediately (preferably prior to the exam). Make up exams are very rare and only provided under extreme, documented circumstances.
- Because of the limited time for this course, your final exam grade will be the average of your top three unit tests grades.
- I will also replace your lowest unit test grade with your final exam grade.

Online Exam Policies and Procedures:

- Tests will be monitored virtually via the Proctorio software. In order for Proctorio to work correctly, you need to be using the most up-to-date Chrome internet browser and add the Proctorio plug in/extension. This extension can be added at <https://getproctorio.com/>.
- Enrollment in the course is an agreement to abide by and accept all terms for online testing. Online exams within this course will require online proctoring. Therefore, students will be required to have a webcam (USB or internal) with a microphone when taking an exam as well as the Chrome internet browser. Students understand that this remote recording device is purchased and controlled by the student and that recordings from any private residence must be done with the permission of any person residing in the residence. To avoid any concerns in this regard, students should select private spaces for the testing. Students must ensure that any recordings do not invade any third party privacy rights and accept all responsibility and liability for violations of any third party privacy concerns.
- Tests must be completed in the time window given. Once you begin your exam, you must finish it and submit it during that sitting. You are not allowed to stop and come back to it later. You are not allowed to take breaks during the exam so plan accordingly. An exam should not take more than two hours to complete. Therefore, you will pick a window of two hours out of the 24 hour window that the exam is posted.
- Your PDF of the exam must be submitted by the due date and time for that exam.
- There will be two links for each exam.
 - a. The first link is the exam I have written and will launch the Proctorio software. To being an exam, click on that link and a PDF will open. You not allowed to download this PDF to your computer or print the PDF. When you are done taking the exam, you will click on “Save and Submit.” If you have not entered anything in the box, Blackboard will ask you if you still want to submit even though you have not typed in any answer(s) and you should click “Okay.” Your answers will be submitted as part of your PDF using the second exam link.
 - b. The second exam link is where you will actually submit your PDF of the exam. You will have 10 minutes after submitting the first exam link (which marks the end of your ability to view the exam) to submit your PDF via the second link. If I don’t get your PDF in that 10 minutes, you will receive a zero on the exam.

- You are not allowed to print off the exam. You should do all of your work for the exam on notebook paper. A PDF of the notebook paper that you used to do the questions is what you will submit over Blackboard.
- Audio, video and your computer screen are being recorded during testing. Please make sure your computer's audio and video are turned on.
- The webcam/video must show both you and your work space at all times during the exam. Your exam workspace should include a writing utensil, blank notebook paper on which to complete the exam, a 3 inch by 5 inch notecard, and your non-graphing calculator. If I can't see both you and your workspace throughout the exam, you will receive a zero. See the posted Blackboard video for an example of what I should see when you are testing.
- After you click on the exam to launch it, you should hold the following up to your webcam for a period of five seconds each:
 - A photo ID (this could be a student ID, driver's license or work ID. The photo ID must show your picture as well as your given name).
 - Your non-graphing calculator
 - Both sides of your 3 inch by 5 inch notecard. You are allowed to handwrite whatever you want on one side of a 3 inch by 5 inch notecard that you may have out during the exam.
- If there is anything else in your workspace, you will receive a zero on the exam. You should not have out any electronic devices (cell phone, smart watches, another computer etc) or notes during the exam.
- The exam itself will be posted on Blackboard and you should be able to have it open on your computer screen during the exam. That is all that should be on your computer screen until you are finished with the exam. Surfing the internet during the exam is prohibited and will result in a zero. Remember that the Proctorio software monitors your computer screen during the exam.
- You should find a private place to test where you will not be interrupted. You should be the only person in the room where you are testing. If I see or hear other people in the room with you, then you will get a zero on the exam.
- There is no talking during the exam. The computer will be recording both audio and video.
- All electronic communication devices (phones, smart watches etc) must be put away during exams. Failure to do so will result in a grade of zero on the exam.
- The Proctorio exam monitoring (audio, video and computer screen) will not be cut off until you submit the first exam link. After you submit that first link, you will have 10 minutes to submit your actual PDF via the second exam link. Please make sure you get a submission confirmation before you close out Blackboard.
- If there is anything questionable that happens during the exam or if you do not follow directions, you will receive a zero on the exam.

Reviewing Grades on Blackboard: After I grade your homework and tests, you should be able to log into Blackboard to not only see your grade but to also see any notes that I made on your submitted PDF.

Grading Formula:

A summer math course can be difficult because of the compact schedule. Completing all assignments and tests and a strong work ethic are important but do not guarantee a passing grade. However, these two things do increase the likelihood of passing. The final responsibility for learning lies with the student. The final letter grade for this course will be based on the following:

- 4 Unit Tests at 15% each60%
- Homework Average.....15%
- Final Exam.....25% (Average of top three unit tests)

Final Grade Determination: A 90-100 B 80-89 C 70-79 D 60-69 F 59 or below

Academic Dishonesty:

Academic dishonesty will not be tolerated. Please see the list of things that constitute plagiarism and cheating in the general 1332 syllabus above. If you violate anything on those lists, you will receive a zero on the assignment/test and could be subject to other actions outlined in the South Plains College Student Code of Conduct.

Resources:

- Blackboard! Since this class is exclusively online, Blackboard is the hub of the class. The course syllabus, calendar, gradebook, “how to” files, notes handouts, notes videos, and homework will be available on Blackboard.
- I am available to help you! Feel free to email me at lchenault@southplainscollege.edu. When you email me, please give me up to 24 hours to respond. My response will be faster during the work week than it will be on weekends.
- Peer tutoring is available via SPC. This tutoring can be somewhat limited during the summer and tutor hours will vary. If you want to use this service, you will need to set up a tutoring appointment. To schedule a tutoring session, go to the SPC Tutoring webpage here <http://www.southplainscollege.edu/exploreprograms/artsandsciences/teacheredtutoring.php>, or go to the SPC webpage, click on Student Services, click on Tutoring.
- Peer tutoring is also available online via Tutor.com. There is a link to Tutor.com on Blackboard and you should use that link to access the service. The hours for the Tutor.com service are 8:00 p.m. – 8:00 a.m. Monday through Friday and from 6:00 p.m. Friday to 8:00 a.m. on Monday.
- Free tutorial videos are available at the following sites: <http://patrickjmt.com/>, <http://www.mathstv.com/>, and <http://www.khanacademy.org/>.

Succeeding in a Math Class:

- Be mentally present! Pay attention and take notes as you watch the lesson videos. Ask questions via email when you have them. If you email about a specific homework questions, please include a picture of the question and the work that you have tried in the email.
- Plan ahead. Do homework early enough before the due date that you will have time to ask questions or seek help if you need it.
- Don’t wait until the last minute to submit homework assignments and tests. If an assignment is due by 6:00 p.m., as soon the clock strikes 6:00 p.m., you will no longer be able to submit on Blackboard. I will not take late assignments.
- The amount of time spent in class for a normal summer class is two hours a day for four days a week. For every hour spent watching notes videos etc, you should expect to spend an extra 2-3 hours working on this course. This includes time spent on homework and studying for and exams. The compact nature of a summer class makes it a huge time commitment on your part so make sure that you are able to make that commitment.
- Get help as soon as you feel yourself falling behind! Don’t wait!
- All note videos and assignments for the course are posted on Blackboard. If you want to get ahead, that is encouraged.
- I have found that the best way for a student to study for a math exam is to practice working problems over and over. The unit review will help with that but anything that we have covered in that unit is fair game for the test.
- Everyone learns and studies differently. I encourage you to seek out and find what works best for you.

Withdrawal Policy: As required by Texas Education Code Section 51.907, all new students who enroll in a Texas public institution of higher education for the first time beginning with the 2007 fall semester and thereafter, are limited to six course drops throughout their entire undergraduate career. All course drops, including those initiated by students or faculty and any course a transfer student has dropped at another institution, automatically count toward the limit. After six grades of W are received, students must receive grades of A, B, C, D, or F in all courses. There are other exemptions from the six-drop limit and students should consult with a Counselor/Educational Planner before they drop courses to determine these exemptions. Students receiving financial aid must get in touch with the Financial Aid Office before withdrawing from a course. It is the student's responsibility to drop. Excessive absences will result in an administrative withdrawal with a Grade of X or F. If you plan to withdraw, please consult with the instructor immediately. **Note: The last day to drop with a grade of W is Tuesday, August 3, 2021.**

MATH 1332.151 Summer II Schedule:

Week	Dates	Day	Lesson/Assignment Due Date and Time
1	July 7 th - July 11 th	Wednesday- Sunday	<p><u>HW Assignment #1:</u> You should submit to me a PDF of the last page of the syllabus with your signature and information. If you don't have a printer, then write out everything on a piece of notebook paper (including the "I certify that I have read and understood..." statement) and submit a PDF of that notebook paper. Please submit that PDF over Blackboard by Thursday, July 8th at 6:00 p.m. If you submit correctly and on time, then I will give you a 100 for your first homework grade.</p> <p><u>HW Assignment #2</u> - Watch notes videos and take notes for sections 7.1 and 7.2. Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Sunday, July 11th.</p>
2	July 12 th - July 18 th	Monday- Sunday	<p><u>A Practice Exam</u> will be available on Blackboard from 6:00 p.m. on Monday, July 12th to 6:00 p.m. on Tuesday, July 13th. You will only be allowed access to the practice exam once and only be allowed to submit once. You, your workspace, and your computer screen will be monitored using the Proctorio software. Work must be submitted by PDF via Blackboard by 6:00 p.m. on Tuesday, July 13th. Upon successful completion of the practice exam (this includes using Proctorio, following directions/procedures for online exams and submitting over Blackboard as a PDF), you will receive a 100 assignment grade.</p> <p><u>HW Assignment #3</u> - Watch notes videos and take notes for sections 7.6, 7.7, 8.1 and 8.2. Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Thursday, July 15th.</p> <p><u>HW Assignment #4</u> - Watch notes videos and take notes for sections 8.3, 8.4, 8.7 and 8.8. Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Sunday, July 18th.</p>

3	July 19 th - July 25 th	Monday- Sunday	<p><u>HW Assignment #5: Unit 1 Review</u> - A pdf of your completed review should be submitted via Blackboard by 6:00 p.m. on Monday, July 19th. You do not have the print off the review unless you just want to do so. A PDF of the notebook paper is sufficient.</p> <p><u>Exam #1 (Algebra Topics)</u> will be available on Blackboard from 6:00 p.m. on Monday, July 19th to 6:00 p.m. on Tuesday, July 20th. You will only be allowed access to the test once and only be allowed to submit once. You, your workspace, and your computer screen will be monitored using the Proctorio software. Work must be submitted by pdf via Blackboard by 6:00 p.m. on Tuesday, July 20th.</p> <p><u>HW Assignment #6:</u> Watch notes videos and take notes for sections 6.5, Conversions, and 7.3. Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Thursday, July 22nd.</p> <p><u>HW Assignment #7:</u> Watch notes videos and take notes for sections 7.5, and 13.1. Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Sunday, July 25th.</p> <p>.</p>
4	July 26 th - Aug 1 st	Monday- Sunday	<p><u>HW Assignment #8: Unit 2 Review</u> - A pdf of your completed review should be submitted via Blackboard by 6:00 p.m. on Monday, July 26th. You do not have the print off the review unless you just want to do so. A PDF of the notebook paper is sufficient.</p> <p><u>Exam #2 (Consumer Math Topics)</u> will be available on Blackboard from 6:00 p.m. on Monday, July 26th to 6:00 p.m. on Tuesday, July 27th. You will only be allowed access to the test once and only be allowed to submit once. You, your workspace, and your computer screen will be monitored using the Proctorio software. Work must be submitted by pdf via Blackboard by 6:00 p.m. on Tuesday, July 27th.</p> <p><u>HW Assignment #9:</u> Watch notes videos and take notes for sections 9.2, 9.3 and 9.4. Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Thursday, July 29th.</p> <p><u>HW Assignment #10:</u> Watch notes videos and take notes for sections 9.5 and Trigonometry (trig is two different notes videos). Then complete the required homework questions for those sections. A PDF of your work and answers for the required homework questions must be submitted by 6:00 p.m. on Sunday, August 1st.</p>

5	Aug 2 nd – Aug 8 th	Monday- Sunday	<p><u>HW Assignment #11: Unit 3 Review</u> - A pdf of your completed review should be submitted via Blackboard by 6:00 p.m. on Monday, August 2nd. You do not have the print off the review unless you just want to do so. A PDF of the notebook paper is sufficient.</p> <p><u>Exam #3 (Geometry Topics)</u> will be available on Blackboard from 6:00 p.m. on Monday, August 2nd to 6:00 p.m. on Tuesday, August 3rd.
